

My name is _____ of
Wheeler Avenue School. The American heart
association is holding a jumpathon at our school.
We do 2 things: we jump rope, all day during gym
on a special day, and we raise money for the
Association. We do it because it makes us feel
good to know we might save someone with heart
disease or a stroke. You can help research to rid
the world of heart disease. Imagine how that
would feel! If you want that special feeling,
please feel free to contribute. Every cent counts!
If so, fill out a check for the American Heart
Association and print your name on the Sponsor
List. And try to jump rope. It's good for the
heart!!!!

Sincerely,
